

## المدرسة الآسيوية الدولية الخاصة ASIAN INTERNATIONAL (P) SCHOOL

Approved by the Ministry of Education - U.A.E. - Affiliated to the Central Board of Secondary Education, New Delhi

Member: Council of the C.B.S.E. Affiliated Schools in the Gulf

18.09.2018

Ref: AIS/HO/DIR- RWS/CIR/0162/2018-19

## **CIRCULAR**

Dear Parents,

Greetings!!

With great pleasure we would like to inform you our progress in obtaining ISO: 9001, OHSAS: 18001 and ISO: 14001 certifications, intended to enhance and implement standard quality system in our School.

We are introducing additional technology related features in the school during the current academic session considering safety and comfort of our students and parents.

The following features will be launched soon!

## (a) AIS Mobile Application (Android/IOS):

The people who are first and foremost concerned and connected to a child's welfare are obviously his or her parents. Taking note of this importance in the present day busy life of parents, AIS has developed a Parent portal for each student and also a Mobile app, which provides them a single point reference to all the school related activities of their ward. This Parent portal/Mobile App is the icing on the cake as it provides a solution for busy parents to keep track of their children's school life.

Various features of this portal/mobile app are: Facilitating online payment of fees, Academic calendar, Notification Center, Communication Center, Generation of reports/results/fee receipts, Modules related to school work such as assignments and study materials, School bus tracking, Feedback section etc. and these features will be incorporated to the mobile app gradually during the coming sessions. The online Parent portal will be hosted alongside the school website, which also helps parents to communicate with teachers and stay informed about their children's progress and discipline at school. Also by this mobile app, parents can track their ward during the travel from pickup point to school location and vice versa.

## (b) RFID(Radio Frequency Identity) cards for students :

These special cards with electronic chips embedded in it are developed in a way that allows the school to easily track the students throughout their stay in this school. The history of the students is kept well by the system. Other than storing the general information about the students, it has the capacity to monitor the presence of students throughout their stay in school and while travelling in the school transport system. This makes it easier for the school to process student transcript when needed. Because of the inbuilt time-in and time-out features, students are automatically sign in when they board/report the bus/school and also sign out when they are leaving the bus/school. These RFID cards will be implemented in the forthcoming week by the new DOT buses hired through M/s. Emirates Transport, whom the school has entered into a contract for our students' conveyance.

We thank you for your support and expect the same in future,

Best regards,

For School Management

Abdul Rahim Saji
